A newspaper clipping from the Tanzanian newspaper 'Biash' (Bwana Biash). The main headline reads 'Utalii wa Utamaduni ulivyosafisha ujangili Mikumi, ukakaribisha uchumi mpya vijijini'. The article discusses the opening of a new road through Mikumi National Park, which has reportedly caused disturbances to lions and other animals. There is a photograph of several lions on a road and another of a group of people, likely park officials or tourists, standing together. The page also contains smaller columns of text and some advertisements.
